

PANORAMA

Our new release flagship

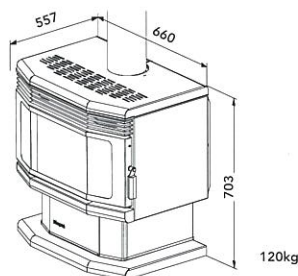

Looking for a wide angle view of your wood fire? The Panorama's unique one piece 3-sided bay window gives you a bigger than usual view of flames and burning logs. This grand fire is the flagship of our range and one we're very proud of. Its design reflects customers' desire for more glass area to see more of the beautiful flames and get more enjoyment from a wood fire.

- Comfortably heats medium to large sized rooms
- Maximum output is 20kW with a normal operating range of 1 - 18kW*
- Burn time on low setting: 15 hours*
- Low emission - less pollution
- Available in Matt Black or Forest Green
- 10 Year Masport Limited Warranty

Optional extras

- 3 Speed Fan increases the circulation of warm air around the room
- Water Booster which links with your water cylinder to reduce electricity costs

Dimensions

IT'S A FACT Masport Wood Fires use modern technology to be more kind to the environment than open fires. Careful research has allowed us to design fireboxes that burn fuel with extreme efficiency so that less fuel is needed. More importantly, all Masport Wood Fires comply with published guidelines and regulations, including those in the Canterbury region, on low emissions which means less air pollution.
